Corporate Password Policy

Overview: To protect company data, all employees must adhere to strict password standards across all corporate systems.

1) **Minimum Length:** Passwords must be at least 14 characters long. Passphrases (e.g., *Blue-Coffee-Mug-2024!*) are highly encouraged for better memorability and security.
2) **Complexity Requirements:** Passwords must include at least three of the following: uppercase letters, lowercase letters, numbers, and special characters (e.g., !, @, #, $).
3) **Expiration and Rotation:** Passwords expire every 90 days. You will receive an automated email notification 14 days prior to expiration.
4) **Password History:** You cannot reuse any of your last 5 previous passwords.
5) **Multi-Factor Authentication (MFA):** MFA is mandatory for all internal systems, VPN access, and email. Do not approve MFA prompts unless you actively initiated the login request.
